EC Council Circle of Excellence award | Best Client Delivery Innovation - Regional winner - Western Province | Best Client Delivery Innovation - National winner
Best Disruptive product Innovation - Regional winner - Western Province | Best Disruptive product Innovation - National winner

PROGRAM BRIEF

LEVEL 1: DATA PROTECTION PRINCIPLES AND FOUNDATIONS

Introduction

This foundational module provides participants with a comprehensive introduction to data protection principles and practices. It establishes a strong understanding of the legal framework, key terminology, and the role of the Data Protection Officer (DPO). Participants will learn about the core principles that govern lawful data processing and the fundamental rights of data subjects.

Upon completion of this module, participants will be able to:

- Understand the role and responsibilities of a Data Protection Officer (DPO).
- Explain the key concepts and principles of data protection.
- Describe the legal framework governing data protection, including the Personal Data Protection Act No. 9 of 2022.
- Identify and apply the core principles of lawful data processing.
- Understand data subject rights and the requirements for obtaining and managing consent.

LEVEL 2: DATA PROTECTION IMPLEMENTATION AND PRACTICE

Introduction

This advanced module builds upon the foundational knowledge of data protection principles and delves into the practical aspects of implementation and management. Participants will learn how to conduct personal data audits and Data Protection Impact Assessments (DPIAs), manage data security and breaches, handle data transfers, and build a comprehensive data protection framework within their organization.

Upon completion of this module, participants will be able to:

- Conduct a personal data audit to identify and assess data processing activities.
- Perform a Data Protection Impact Assessment (DPIA) to evaluate and mitigate risks associated with data processing.
- Develop and implement data security measures and incident response plans.
- Manage data breaches effectively, including notification procedures.
- Understand the requirements for data transfers and third-party management.
- Build a data protection framework, including policies, procedures, training, and auditing mechanisms.

COURSE CONTENT

LEVEL 1: DATA PROTECTION PRINCIPLES AND FOUNDATIONS

Module 1: Role of a Data Protection Officer

Module 2: Introduction to Data Protection

Module 3: Principles of Data Protection

Module 4: Data Subject Rights and Consent Management

Module 5: Performing a Personal Data Audit

LEVEL 2: DATA PROTECTION IMPLEMENTATION AND PRACTICE

Module 6: Performing a DPIA

Module 7: Security Context

Module 8: Data Breach Management

Module 9: Data Transfers and Third-Party Management

Module 10: Building a Data Protection Framework

Module 11: Enforcement and Penalties

Module 12: Practical Exercises and Case Studies

DURATION

Level 1 and Level 2 are conducted over 2 days each.

ENTRY

Any enthusiast age above 16 years
